TECHNICAL SKILLS

| Node.js | Express | MongoDB | React.js | REST APIs | Git | GitHub | SQL | NoSQL |
| AWS | Jest Testing | Redux | JavaScript | TypeScript | HTML | CSS | SCRUM |

PROFESSIONAL EXPERIENCE

Full Stack (Node) Developer
🏢 **Stealth Healthcare Startup**

Jan. 2021 - Ongoing
Remote (Germany)

Worked as a full-stack developer for a startup which focused on connecting social workers with people with disabilities or illnesses. Technologies used: JavaScript, Node.js, MongoDB, React, AWS, REST API, Jest Testing

- Collaborated tightly with other developers and followed SCRUM workflow
- Utilized testing to ensure stability and reliability of the product, speeding up overall development time
- Developed the back-end API in its entirety and made critical contributions to the front-end

Back End (Node) Developer Intern
🏢 **Ether**

Nov. 2020 – Dec. 2020
Remote (India)

Worked as a back-end intern for a social media company. Technologies used: Node.js, Express, MongoDB

- Single-handedly accelerated development by over 50% relative to the project manager's estimated target date
- Consulted closely with the project manager to incorporate new features and achieve optimal results
- Developed a major portion of the project's back-end API

PROJECTS

GymBuddy – Hackathon Winning Project
🔗 **View Submission** | **View Code**

Mar. 2021
Remote (Canada)

Worked with a team to develop a web application for easily finding a workout partner, which was selected as the winning submission in the "Totally Not Twitter" category at the international virtual hackathon WinHacks, hosted by Windsor University. Technologies used: JavaScript, Node.js, Express, MongoDB, React, REST API

- Implemented the entire back-end API, developed the database & contributed heavily to the frontend
- Effectively communicated with newly-met team members and assisted them with bugs and questions

MERN Ecommerce Website
🔗 **Live Demo** | **View Code**

Sep. 2020

Developed a detailed Ecommerce web application using Node.js, Express, MongoDB & React. Hosted on AWS EC2

EDUCATION

SMŠ "Mladost" High School
🔗 **Website**

Sep. 2017 – May. 2021
Tivat, Montenegro
